

Demonstration (Cutaway) Units

D10 models demonstrate the wobble plate principle of operation.

P200 models demonstrate the crank-shaft principle of operation.

Demonstration units of Hydra-Cell D10 and P200 (metering) pumps are available with or without a rolling carry case (furnished with the appropriate sticker). The units are “cut away” to show both the wobble plate (D10) and crank-shaft (P200) operating principles as well as other features including the multiple diaphragm design that provides virtually pulse-free flow, and spring-loaded, horizontal check valves which, combined with the seal-less design, enable Hydra-Cell to handle abrasives and particulates that would damage other types of pumps.
